HEAD IN THE CLOUDS

Just like the building, the quality of life at The Victor is sky high.

3039 NOWITZKI WAY, DALLAS

New to the Victory Park skyline is The Victor, a highly anticipated addition to the uptown Dallas luxury residential scene. At 40 stories, The Victor towers over its neighbors, providing spectacular 360-degree views, especially for the fortuitous residents of the corner units and elegant penthouses. Those who get to hold the keys to the other exclusive studios and one- and two-bedroom apartments are far from out of luck, though: Each apartment also features floor-to-ceiling windows, stainless-steel appliances and custom Italian cabinetry. Kelie Mayfield, co-principal of Mayfield and Ragni Studio, which is responsible for part of The Victor's interior design, highlights the available private office space in many units, featuring natural light and views that elevate the experience of working from home. The phenomenal skyline views are also complemented by a menu of amenities akin to those of a resort. A skyline terrace, gaming lounge, pool and "pooch spa" are just the beginning, further accentuated by exceptional interior design inspired by the Dallas cultural scene and featuring museum-quality art by local and international creatives.
